Glass Options

1/4" black or white laminated glass standard, 1/4" clear tempered and a full array of architectural glazing options available upon request.

Door Size Options

Standard door sizes available for immediate order: 16 x 7, 16 x 8, 9 x 7, 9 x 8, 8 x 8 and 8 x 7. Other door sizes may be custom ordered.

Superior Craftsmanship

AlumaDoor full view doors are beautiful, textured, easy to maintain, weather resistant to sun, cold and rain, and you'll never have to deal with painting, chipping, or peeling wood.

Quality Hardware

Our precision-engineered doors include heavy duty commercial grade galvanized steel hardware mounting and installation kits that any homeowner will appreciate.

Customize Your Door

Once you choose your glass and finish, you can choose from standard door dimensions or order custom panel dimensions.

Better Door. Better Price.

About AlumaDoor

AlumaDoor garage doors are designed and manufactured for durability, quality and style. The precision-cut tongue-in-groove frame construction, extra-wide top and bottom rails, heavy exterior-grade bottom weather seal, and wide end stiles ensure a weather-tight fit for your garage door. And for garages with over-sized sedans and SUVs, the 6063-T6 extruded aluminum alloy integrated internal strut maximizes backroom and headroom clearance. When you buy an AlumaDoor, you're getting a better door at a better price.

Heritage Series Aluminum Doors

ALUMADOOR

HERITAGE WOODGRAIN DOORS A Better Door at a Better Price.

When you buy an AlumaDoor, you're buying quality. Up close or from the curb, the gorgeous, tactile woodgrain texture and pre-stained finish on every exposed surface ensures a complete sense of wood. The precise fit of real tongue-n-groove panels exudes quality from every angle. The divided-lite windows deliver an unsurpassed classic architectural appeal to any home. And from a design standpoint, AlumaDoor garage doors are engineered to maximize headroom and backroom clearance, optimal for oversized sedans and SUVs.

Enhance your curb appeal with a Heritage Woodgrain Door.

Superior Craftsmanship

AlumaDoor garage doors are built on quality. Wood grain surfaces are stained on all six sides. Panels are built on a ¼-inch tongue-n-groove design. The divided-lite tops glazed with ¼-inch tempered clear glass* enhances the appearance. And the 6063-T6 extruded aluminum alloy frame with integrated internal strut maximizes backroom and headroom clearance.

* Other glass options available.

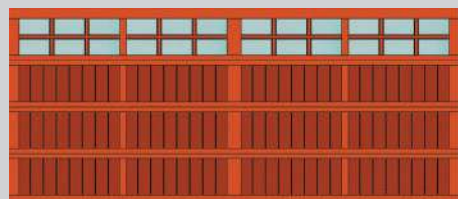

Benefits of Aluminum

- Lighter
- More durable
- Easier to clean and maintain
- Will not dent, peel, crack or split like stamped steel or natural wood doors
